Basic Series					
		P30 Desktop Version	28CM	Product dimensions: 300*300*55mm Resolution: 1024*384 dpi Number of light bulbs: 384 Rated power: 15W Input voltage: 5V Storage space: 8G Playback formats: MP4, AVI, RMVB, JPG Content replacement method: Mobile APP Lifespan: ≥30,000 hours (continuous operation)	Standard battery capacity provides 2 to 4 hours of usage time.
Creative Series					
		50CM Double-Sided Waterproof Light Box	42CM	Product Size：500*590*160mm Resolution: 1024*640 Number of LED Beads: 448pcs LED Type: 1615 LED Power Consumption: 15–24W Input Voltage: AC 100–240V Control: Remote / APP / PC Video Format: MP4, AVI, JPG, PNG Lifespan: ≥30,000 hours (continuous operation)	It is equipped with a double sided transparent protective cover. Two 42cm diameter holographic fans are displayed on both sides. The whole machine is packaged and dispatched for immediate use after plugging in. It can be wall-mounted, suspended or floor-standing
		Q50 Holographic Ball	50cm	Product Size: 500*500*570mm Resolution: 1536*768 dpi Number of LED Beads: 1536 Viewing Angle：360° Rated Power: 150W Input Voltage: 24V Storage Capacity:16G Supported Formats: MP4, AVI, RMVB, JPG Content Update Methods: SD Card, Mobile APP Lifespan: ≥30,000 hours (continuous operation)	A Vegas-inspired spherical display solution featuring 360° surround vision, stunning 3D effects, and smart APP control. Perfect for scenic areas, exhibitions, commercial spaces, and events.
		Q100 Holographic Ball	100cm	Product Size: 1000*1000*1170mm Resolution: 3072*768dpi Number of LED Beads: 3072 Viewing Angle：360° Rated Power: 450W Input Voltage: 24V Storage Capacity:16G Supported Formats: MP4, AVI, RMVB, JPG Content Update Methods: SD Card, Mobile APP Lifespan: ≥30,000 hours (continuous operation)	A Vegas-inspired spherical display solution featuring 360° surround vision, stunning 3D effects, and smart APP control. Perfect for scenic areas, exhibitions, commercial spaces, and events. Mobile Base Design with Casters for Easy Movement
Premium Edition Series					
		65 HD version	65cm	Product size :650*650*90mm Resolution :3000*900dpi Number of lamp beads :960 Rated power :120W Input voltage :24V Storage space: 8G Playback format: MP4, AVI, RMVB, JPG Content replacement method: mobile APP Lifespan: ≥30,000 hours (continuous operation)	Android intelligent system, full A40(quad-core 1.2GHz), 2K high-definition picture quality, high color restoration, high brightness, the effect is also good under the sun, support multiple splicing, support point-to-point WIFI upload, support LAN splicing/remote cloud splicing, support Bluetooth audio, support mobile phone wireless screen
		100 HD version	100cm	Product size :990*990*90mm Resolution :3000*1332dpi Number of lamp beads :1332 Rated power :144W Input voltage :24V Storage space: 8G Playback format: MP4, AVI, RMVB, JPG Content replacement method: mobile APP Lifespan: ≥30,000 hours (continuous operation)	Android intelligent system, full A40(quad-core 1.2GHz)2K HD, high color restoration, support point-to-point WIFI upload, support LAN splicing/remote cloud splicing, support Bluetooth audio, support mobile phone wireless screen projection
		150 HD version	150CM	Product size :1500*1500*140mm Resolution :2048*2880dpi Number of lamp beads : 2880 Rated power :320W Input voltage :24V Storage space: 16G Playback format: MP4, AVI, RMVB, JPG Content replacement method: mobile APP Lifespan: ≥30,000 hours (continuous operation)	Android intelligent system, full A40(quad-core 1.2GHz)2K HD, high color restoration, support point-to-point WIFI upload, support LAN splicing/remote cloud splicing, support Bluetooth audio, support mobile phone wireless screen projection
waterprrof series					
		A80 bare metal waterproof version	77CM	Product size :770*770*90mm Resolution :1280*1280dpi Number of lamp beads :1280 Rated power :80W Input voltage :24V Storage space: 8G Playback format: MP4, AVI, RMVB, JPG Content replacement method: mobile APP Lifespan: ≥30,000 hours (continuous operation)	Wrong touch emergency stop function, outdoor bare machine waterproof, high brightness, support multiple splicing, support point-to-point WIFI upload, support cloud ultra-remote control, support Bluetooth audio
HDMI Real-time Synchronization Series					
		65HDMI	65CM	Product size :650*650*77mm Resolution :2048*960dpi Number of lamp beads :960 Rated power :100W Input voltage :24V Playback format: HDMI real-time input Replacement Method: Connect an external host Lifespan: ≥30,000 hours (continuous operation)	HDMI interactive version, need external playback source control, real-time interaction zero delay. Supports multi-device splicing
		100HDMI	100CM	Product size :1000*1000*77mm Resolution :2048*1440dpi Number of lamp beads :1440 Rated power :200W Input voltage :24V Playback format: HDMI real-time input Replacement Method: Connect an external host Lifespan: ≥30,000 hours (continuous operation)	HDMI interactive version, need external playback source control, real-time interaction zero delay. Supports multi-device splicing
		150HDMI	150CM	Product size :1500*1500*140mm Resolution :2880*2880dpi Number of lamp beads :2880 Rated power :320W Input voltage :24V Playback format: HDMI real-time input Replacement Method: Connect an external host Lifespan: ≥30,000 hours (continuous operation)	HDMI interactive version, need external playback source control, real-time interaction zero delay.
Digital Human Series					
		px 65 Upgrade version	65*155CM	Bare 1*3 stand model, including video synchronizer	Dedicated splicing version with wired control Seamless image stitching with no visual gaps Built-in FPGA module for smoother images and enhanced display quality
		65HDMI	65*155CM	Bare 1*3 stand model, including 4K HD splicing matrix controller	HDMI interactive version, need external playback source control, real-time interaction zero delay
		Cylindrical transparent protective cover	70*190CM	It can accommodate three devices with a diameter of 65 cm each.	Bottom with pulley, glowing both up and down
Matrix Series					
		3*6 Matrix	208*387cm		Sizes can be customized.
		2*3 Matrix	111*155cm
